

St. John Nepomucene Catholic Community Parish Center

Following a campus feasibility study in 2022, St. John Nepomucene Catholic Community partnered with Hoffman for the design and construction of their new Parish Center. St. John's existing office complex was deconstructed to make room for the new 23,650 square foot building designed with energy conservation and environmental friendliness in mind. The Parish Center includes easier access and more space for the Parish Food Pantry; dedicated classrooms and meeting spaces for Faith Development Education; expanded children's programming areas for children's liturgy; multi-purpose rooms for programming, Bible studies, prayer groups, and rental space; and improved handicap accessibility. The new Parish Center will also house offices for parish staff, including clergy members, financial, faith development, youth ministry, and marketing staff.

Additional Spaces:

- Children's Liturgy
- Parish Food Pantry
- Bible Study
- Prayer Groups
- Warming Kitchen
- Mission Club
- Rental Space

Interior & Exterior Building Materials:

- Brick
- Metal Panel
- Natural Stone
